

AT-07	US-08 As a user, I want to be able to edit my account information as a precaution in case of a change.
Demo Steps	<ol style="list-style-type: none"> 1. Once logged in as a user click the edit profile button in the side nav bar 2. Change the values of name, email and password 3. Navigate to the home page and sign out via 4. Sign back in with the new password to verify that the password has been changed. 5. Select edit profile again to make sure the previous changes are there
Acceptance Criteria	Given that I have a user profile created I can find my profile page and update my user name, email and password then log out and log back in with the new password
Result	Fail

Comment: When logging out and back in again, it's the old password that allows log in not the updated password
