

Burndown Chart

The chart displays the progress of user story points over a 5-sprint cycle. The Y-axis represents 'User Story Points' (0 to 60) and the X-axis represents 'Sprint' (0 to 5). The blue line shows the ideal linear burndown, while the orange line shows the actual points remaining.

Sprint	Ideal Points Remaining	Points remaining
0	45	45
1	33.75	42
2	22.5	42
3	11.25	27
4	0	24
5	0	0
